

Quality Improvement Plan (QIP)

# Narrative for Health Care Organizations in Ontario

March 3, 2026

## OVERVIEW

Extendicare Ridgeview is a long-term care home located in Stoney Creek and is part of a leading seniors' health care organization that provides high-quality care and services for seniors across Canada.

Providing the highest quality of care we provide for our residents and their families guides all we do. We are committed to continuous improvement, and on an ongoing basis, we seek new ways to evolve our training, technology and practices to best support the residents we serve and their families.

Our Purpose, Mission, Vision and Values

Our Purpose is helping people live better.

Our Mission is to provide people with the care they need wherever they call home.

Our Vision is ensuring everyone in Canada has access to the care and support they need to live their best lives.

Our Values

- We embrace every person for the individual they are.
- We care for each person as we would our own family.
- We collaborate with others because we achieve more together.
- We are relentless in our efforts to improve.
- We respect the resources entrusted to us.

Quality Framework

Extendicare's Quality Framework outlines the ways in which our home is supported to achieve success with a focus on quality of life, safety, regulatory compliance and resident engagement. In alignment with provincial requirements, each Extendicare home in

the province is responsible for directing their quality plan, with the support of a dedicated regional team of subject matter experts who assist us with our home's quality initiatives. Our strategic direction and the initiatives that support the plan also meet or exceed standards set by Accreditation Canada and meet the requirements of our Long-Term Care Home Service Accountability Agreement (LSAA) with the Ministry of Long-term Care.

Our home's multidisciplinary Continuous Quality Improvement (CQI) Committee oversees our quality program. It is led by our home's CQI lead. Membership includes our home leadership team, each designated program lead, Medical Director, Dietitian, Pharmacy Consultant, Resident and Family Council representatives, and care team representatives, including a Personal Support Worker and a Registered Nurse. Our CQI committee meets quarterly at minimum, and uses a CQI Framework in alignment with Extencicare's enterprise-wide strategic care quality priorities, to identify key areas for quality improvement in our home, make recommendations, monitor and measure progress, identify and implement adjustments, and communicate improvement outcomes for the current and following year. Results are discussed and shared with residents, families, team members and external partners to support our priorities, targets and activities.

Across our organization, Extencicare measures and monitors our quality initiatives and quality indicator results. Home-level quality reports are circulated monthly and reviewed by homes and regional teams across our network, to help us monitor progress and drive meaningful conversation about ways we can improve, at each home's CQI committee meetings. Performance monitoring is a key part of our relentless effort to improve performance. Our quality

assurance work includes but is not limited to:

- Monitoring key quality indicators
- Internal audits
- External audits
- Annual program evaluations
- Resident and Family Experience Survey results

In 2025, our home's Quality Improvement Plan priority areas included Fall Prevention, Restraint Reduction, Antipsychotic Deprescribing, and Pressure Injury Reduction. Guided by valuable feedback from our home community, the following top areas for improvement identified from our 2024 Resident and Family Experience survey results were also included: Residents will be satisfied with the quality of care from doctors, Residents will feel their goals and wishes are heard and considered in their care, I am satisfied with the quality of cleaning in the residents' room, and I am satisfied with the quality of care from my Physiotherapist.

We are proud of the following achievements and improvements, implemented in response to the 2024 survey results and incorporated into our 2025 Quality Plan:

- Resident-Centered Care: 96.3% of residents reported that their goals and wishes are heard and considered in their care.
- Physiotherapy Satisfaction: 75% of residents expressed satisfaction with the quality of care received from their physiotherapist.
- Falls: The percentage of residents who experienced a fall in the 30

days preceding their assessment remains below the provincial benchmark at 14.3%.

- **Inappropriate Use of Antipsychotics:** Use of antipsychotic medications remains below the provincial benchmark at 10.9%.
- **Restraints:** The percentage of residents physically restrained on a daily basis remains at 0%, below the provincial benchmark.
- **Pressure Injuries:** The incidence of worsened Stage 2–4 pressure injuries remains below the provincial benchmark at 1.5%.

Our CQI committee has determined that for 2026, our priority areas for quality improvement in our home will continue to focus on quality and safety indicators, including Fall and Injury Prevention, Worsened Pressure Injury Reduction, Antipsychotic Deprescribing and Restraint Reduction. We currently have no restraints in our home. For 2026 we will continue to monitor our current processes to sustain results but have not included as a priority area in our action plan. In addition, we will include the following areas from our 2025 Resident and Family Experience survey as determined through consultation with our Resident and Family Councils:

- I feel encouraged to share my ideas about the recreation and leisure activities offered on the calendar.
- I am satisfied with the quality of cleaning in the resident's room.
- I am satisfied with the quality of laundry services for clothing and linens.

## ACCESS AND FLOW

Ensuring good access to care and supporting flow means that the

right care is received in the right place at the right time across the health care system. We have an important role to play, and Extendicare is committed to working closely with our community partners including our regional Ontario Health at Home team, hospitals, community and business partners to ensure safe, effective and high-quality care of residents across the organization and at the local home level. We do this through ongoing relationship building and active partnerships with health system partners such as local long-term care homes, regional Infection Prevention and Control (IPAC) hubs, Ontario Health teams and various regulatory authorities.

In addition, our partnerships extend to our Medical Advisor and Attending Physicians as we work to improve medication management, clinical care and reduce unnecessary emergency department (ED) visits.

We work together with residents, their families and our health system partners to ensure safe, person-centered and effective admissions to our home, including through a collaborative process to develop individualized care plans to meet each resident's unique needs. We understand transitions throughout the system are not easy for those we serve. We work to apply additional care and attention to closely engage and support those in our care at times of change or at times where specialized supports are required in their health care journey.

Prevention and health promotion

Throughout the year, we support and participate in organization-wide awareness campaigns that educate team members, residents

and families. Our home has access to an annual awareness calendar that highlights key health promotion and professional recognition events, which are supported nationally through communication and education, and locally at our home with activities that are tailored to the home's needs and demographics. Organization-wide educational campaigns include:

- **Safe Spaces:** Four key safety awareness events – Infection Control Week, Canadian Patient Safety Week, Seniors' Safety Week, and Fall Prevention Month – are combined into an annual, six-week sustained safety campaign each autumn. Aimed at promoting a culture of safety across the organization through education, resources and home-level activities, the campaign equips our team members with knowledge and tools to continuously improve quality and safety and engages residents and families as partners in care.
- **Stick it to the flu:** Through Extendicare's annual influenza vaccination campaign, all homes are encouraged to aim for 90% vaccination rates for of residents and staff. Individual and home-wide incentives are provided for achieving this benchmark, and our home hosts on-site vaccination clinics.
- **Hand Hygiene Day:** Led by our IPAC team, each year, this day is marked by an intensive focus on tools and education to promote proper hand hygiene practices for team members, residents and families. Homes across Extendicare participate in a friendly challenge to find the most creative and engaging ways to promote hand hygiene – from writing jingles to hosting events.
- **Alzheimer's awareness:** In long-term care, we are entrusted to care for a resident population that is impacted by rising rates of

Alzheimer's and dementia. In addition to an intensive communication focus during Alzheimer's Awareness Month every January, our home has access to tools and education year-round that helps our team members tailor personalized care to the unique needs of each resident living with dementia – respecting their own lived experiences, preferences and behaviours, from Gentle Persuasive Approaches (GPA) training, to dementia-focused tools for skin and wound care.

Right care in the right place at the right time

On an ongoing basis, we work hard to support, train, retain and recruit qualified and compassionate team members who work together in service of quality care for residents. We know strong interdisciplinary teams are essential to the delivery of quality care and we foster a culture of collaboration to contribute coordinated expertise, as resident plans of care are provided. In addition, we are actively recruiting Nurse Practitioners to support our collaborative models of care, continue to invest in building credentials among our team for advanced wound care nurses (SWANs), provide training and resources for our team to enhance skillsets in IV therapy with multi-venous IV training arms, compassionate end-of-life care and more.

Building capacity

We recognize how important long-term care is within our health system. At an enterprise-wide level, Extendicare is actively working to increase access to care through the construction of new long-term care homes built to modern design standards with the goal of increasing access to care for more people on the province's long-

term care waiting list. In communities across the province, Extendicare is building for the future, with plans to redevelop every older home in our network. New homes are designed to deliver significant improvements to resident quality of life, with private bedrooms for all, enhanced communal lounges for activities and family visits, increases in space for restorative therapies and more.

## **EQUITY AND INDIGENOUS HEALTH**

Extendicare is committed to improving equitable access, experience and outcomes to reduce health inequities and advance indigenous health across our organization.

At Extendicare, we embrace every resident for the individual they are, and care for them as we would our own family. Our Equity and Indigenous Health program reflects our core values by recognizing and honouring the diverse identities, cultures, and experiences of each resident. By integrating culturally appropriate care and Indigenous traditions, we affirm the importance of personal and cultural heritage in shaping well-being. Through culturally diverse programming, menu selection, staff education and meaningful community partnerships, we create a safe and inclusive environment where residents feel valued, respected and empowered to be their authentic selves. This commitment is essential to providing compassionate and equitable care.

Our Equity and Indigenous Health program is informed by our Resident and Family Councils, and by the data we gather from our annual Resident and Family Experience Survey. Through partnerships with local Indigenous Elders, Knowledge Keepers, and regional health organizations we are able to integrate healing practices and culturally significant activities into care plans.

Personalized support ensures residents feel seen, respected and connected to their heritage.

Implementing specific training on cultural safety, anti-racism, and the history of Indigenous Peoples in Canada for all staff, fosters awareness and equips caregivers with the skills to address systemic barriers and biases. Identifying and addressing systemic gaps in care, including access to interpreters, culturally appropriate meals and resources, and the provision of trauma-informed care, are skills taught in staff training. Regularly assessing program outcomes through resident feedback, and staff input, helps us ensure continuous improvement.

Some examples of programs we have implemented include: Awareness of diversity has increased among team members through a variety of initiatives. The home celebrated Black History Month, Indigenous Peoples' Day, Italian Day, and Pride Month. In addition, the "Armchair Travel" program encourages residents to explore a different country each month, fostering cultural engagement and learning. In 2026, we commit to continued efforts in support and recognition of the many diverse histories, perspectives, identities and traditions among our teams, residents and their families in our home community.

## **PATIENT/CLIENT/RESIDENT EXPERIENCE**

Active engagement of residents and families is essential to our values and is a foundational pillar of quality care. Annually, through an anonymous survey, we seek feedback from residents and their families about what they feel is going well and what we can do to improve. The annual survey provides our home with a summary of the scores and comments for each of the areas of care and services

offered. We use this report to collaborate with the residents and family councils to determine an action plan to improve the experiences of the people we serve. On a regular basis during the year, we discuss progress updates and strategies for improvement via town halls, resident and family council meetings and newsletters.

Our ongoing goal is to incorporate feedback to continually improve the quality of care we provide – and the programs and services we deliver - by ensuring the care each resident receives is reflective of their individual needs and wishes.

Extendicare is proud to have a National REACH (Resident Experience Action Council for Homes) comprised of resident and family representatives from our long-term care homes in every province where we operate. The council is co-led by resident and family members and provides valuable input on organizational initiatives and decisions. Supported by designated head office leaders, a community of practice meeting is held bimonthly and is open to all residents and families interested in sharing best practices and learning new ways to approach engagement, co-design, and council roles and responsibilities.

Our 2025 Resident and Family Experience Survey Results:

Dates of our 2025 Annual Resident and Family Experience Survey:  
September 2 – October 10, 2025

Resident: Would you recommend this home? 96.3%

Family: Would you recommend this home? 97%

Survey results were reviewed by CQI committee: January 27, 2026

Survey results were shared and discussed with Resident Council:

January 13, 2026

Survey results were shared and discussed with Family Council:

February 10, 2026

A copy of the survey results was provided to Resident Council:

January 13, 2026

A copy of the survey results was provided to Family Council:

February 10, 2026

Survey results were posted on our bulletin board: January 13, 2026

Survey results shared with staff in the home: February 5, 2026

During discussions with the Residents and Family council when sharing our 2025 results, three areas were determined to be most important priorities for us to focus on and these are included in our 2026 QIP.

Top three areas Resident Experience survey priorities for improvement in 2026:

1. I feel encouraged to share my ideas about the recreation and leisure activities offered on the calendar 61.5%: 1) Implement monthly Program Planning Meetings to inform and engage residents in program decision making by April 1, 2026. 2) Use real-time feedback tools such as evaluations of programs, seeking resident feedback on enjoyment and satisfaction of program in real time by April 1, 2026.
2. I am satisfied with the quality of cleaning in the residents' room 45%: 1) Training for staff on proper use of microfiber cleaning systems by April 1, 2026. 2) Review of high touch areas and dusting schedule by April 1, 2026.
3. I am satisfied with the quality of laundry services for clothing and

linens 50%: 1) Review process for labelling clothing by April 1, 2026.  
2) Communicate to families and residents about importance of having machine washable clothes and not delicates due to heat of commercial laundry systems by July 31, 2026.

## PROVIDER EXPERIENCE

Extendicare Ridgeview is part of a broader organization in which there are many opportunities to engage with staff and leaders in sharing quality improvement goals and commitments. This is achieved through Employee Engagement surveys, sharing of best practices organization-wide, regional quality labs, and participation in the Ontario Long Term Care Association (OLTCA) Quality Committee and annual quality forums.

Our annual Employee Engagement survey provides an opportunity for team members to give their feedback on various issues such as staff satisfaction, innovation, and work environment. Based on previous Employee Engagement results we worked hard this year to engage our team members to help them understand how their work connects to our strategic priorities and how that drives our mission.

Employee engagement continues to rise, with scores up by 0.3 and over 15,000 surveys completed. We'll keep building on this momentum and clearly communicate how every team member's contributions motivate our organizational goals.

Extendicare has an organization-wide Care Champion Program which celebrates the meaningful work, commitment and passion demonstrated by our dedicated team members. This program places a spotlight on team members who go above and beyond to improve care, every day for our residents. Active team members at our long-term care homes can be nominated by our residents,

family members, peers or managers, for special recognition of the extraordinary care they provide.

### 1. Strengthening Recruitment Efforts

- **Strategic Hiring Partnerships:** Collaborating with colleges and universities to attract skilled healthcare professionals through internship programs, job placements, and career fairs.
- **Diversity Hiring Initiatives:** Ensuring equitable hiring practices that focus on attracting candidates from diverse cultural, linguistic, and professional backgrounds to reflect our resident population.

### 2. Retention-Focused Programs

- **Competitive Compensation and Benefits:** Reviewing and enhancing salary structures, benefits, and wellness programs to remain competitive in the market.
- **Career Growth Pathways:** Implementing clear career progression plans, mentorship programs, and leadership development tracks for employees to advance within the organization.

### 3. Enhancing Workplace Culture

- **Team Building & Social Engagement:** Hosting regular social events, wellness activities, and peer support groups to build a stronger sense of community among staff.
- **Workplace Well-Being Initiative:** Providing mental health support and access to Employee Assistance Programs (EAPs) to promote a healthy work-life balance.

### 4. Professional Development & Continuous Learning

- **Specialized Training Programs:** Expanding credentialing programs such as wound care (SWANs), multi-venous IV therapy, and end-of-life care training to enhance staff expertise.

- On-Site & Virtual Learning Opportunities: Offering continuing education programs, certification support, and leadership training to encourage ongoing professional growth.

#### 5. Technology Integration for Employee Support

- Digital Communication Platforms: Enhancing internal communication through mobile apps and online portals where staff can access schedules, policies, and updates in real time.

By continuously innovating and adapting to the evolving needs of our workforce, Extendicare Ridgeview is committed to fostering a supportive, engaging, and growth-oriented work environment that attracts and retains top talent while enhancing the quality of care for our residents.

## SAFETY

At Extendicare, we take a system approach to preventing and reducing resident safety incidents. At the core of this approach is system learning and process improvement.

Incidents and risks are escalated rapidly within the organization, so that they can be addressed and mitigated as effectively as possible, with rapid response support provided to home care teams by specialized organizational support team members. When a root cause from an incident in one home is identified that may pose a risk elsewhere, an alert is sent out to all care teams across our organization. These alerts flag issues and risks home leaders should be aware of, and preventative measures homes need to take in relation to care practice and risk prevention.

Safety data is analyzed continually from all Extendicare homes to identify improvement opportunities. Standardized process, policy, practice and technology improvements are developed in response, and shared through education with care teams across all our homes. Education and question and answer (Q&A) webinars are held on safety and clinical practice topics derived from this analysis and attended by leaders and clinicians from all Extendicare homes throughout the year.

From front-line to senior leadership, safety incident reporting, awareness and response, is embedded in our roles and daily work. All these program elements, and more, comprise our safety culture program.

## PALLIATIVE CARE

Residents and families in long-term care deserve compassionate, high-quality care. Our teams collaborate with residents and families to tailor plans of care based on each residents' individualized needs.

We provide enhanced palliative care training for interdisciplinary teams, in partnership with Pallium Canada, enabling high-quality clinical, spiritual and emotional palliative care supports for residents and their families. In 2026 as an organization, we are training additional facilitators so we can provide ongoing educational opportunities as we continue to build a culture utilizing a palliative approach to care.

In collaboration with Pallium all Extendicare homes have a registration link to family caregiver education on palliative care. The CARERS course is available free of charge and is an excellent educational opportunity we promote for caregiver support.

In 2025, we updated our Palliative Program policies and procedures to further emphasize the importance of a palliative care philosophy. Our 2026 focus will continue to build upon earlier awareness and identification of those who require a palliative approach to care through implementation of a standardized Palliative Assessment which is designed to guide staff in addressing the holistic needs and symptom management of each resident.

## POPULATION HEALTH MANAGEMENT

Extendicare Ridgeview considers the unique demographics in our home when planning care delivery requirements, programs, resources and external partnerships. In our home our population needs consist of dementia. To meet the individualized needs of our residents, we have implemented programs such as Personal Centered Care, Dementiability program and a secure home area.

We also collaborate with Behavioural Support Ontario, Alzheimer's Society, Home and Community Support Services, Baycrest Virtualmedicine Program, and Hamilton Health Science Geriatric Psychiatry Outreach.

## CONTACT INFORMATION/DESIGNATED LEAD

CQI committee chair: Rim Mekonnen Interim ADOC,  
rim.mekonnen1@extendicare.com

Quality Lead of home: Borka Zanetti DOC
